

Musical Interaction

Musical interaction is an interactive approach working with a musician to develop social and communication skills for young people with Autism.

We offer:

- ▶ One to one sessions for young people
- ▶ Group sessions
- ▶ Staff CPD and training

The work offers children and young people on the autism spectrum the fundamental communication skills through fun, child lead interactive music sessions.

It promotes:

- ▶ Emotional well-being
- ▶ Interaction
- ▶ Communication
- ▶ Confidence

SHIRLEY NOVAK

Shirley is an experienced artist delivering music and media centred sessions to young people on the autism spectrum. She believes music can be a fun and motivating way to teach children, especially those with distinct learning needs.

For a full Education Pack outlining the work is available. For more information and to book please visit the website or contact
